

Finance AI Agent Report

Periodo: 2026-02

Generado por Finance AI Agent a partir de datos procesados.

Resumen ejecutivo

February 2026 showed a modest net operating result of \$44,000, but tuition collection fell below target at 93.00% (vs. 94.00% threshold). Payroll expenses exceeded budget by 4.0% despite being 39% of revenue. The primary risk is delayed tuition collections impacting cash flow, with no overdue invoices reported but transaction evidence unavailable.

Hallazgos clave

- Tuition collection rate at 93.00% missed the 94.00% target by 1.00 percentage point
- Payroll expenses exceeded budget by \$30,677.22 (4.0% variance) despite being 39% of revenue
- All departments showed revenue variance (-3%) and expense variance (+2.06%)
- No overdue invoices reported despite collection rate shortfall

Causas raíz probables

- Unverified transaction data preventing root cause analysis of collection shortfall
- Payroll budgeting may not align with actual headcount or compensation changes
- Departmental expense overruns (2.06% average) may indicate operational inefficiencies

Recomendaciones estratégicas

Prioridades estratégicas

Prioridad
Fix tuition collection process to meet 94% target
Align payroll budgeting with actual headcount and compensation
Address departmental expense overruns

Causas raíz

Causa probable
Unverified transaction data preventing root cause analysis of collection shortfall
Payroll budgeting may not align with actual headcount or compensation changes
Departmental expense overruns (2.06% average) may indicate operational inefficiencies

Acciones recomendadas

Prioridad	Acción	Impacto
high	Investigate transaction processing system for missing payment records	Identify if collections are delayed or system errors are causing shortfall
medium	Review payroll budget vs. actual headcount and compensation changes	Adjust payroll budgeting methodology to prevent future overruns
medium	Analyze departmental expense overruns for operational inefficiencies	Identify cost-saving opportunities without impacting revenue

Collection rate shortfall is the primary risk (93% vs 94% target), but evidence for root cause is missing (STEP-001 failed). Payroll variance is significant but explainable by budgeting methodology. Departmental expense overruns are consistent but not critical. Missing transaction data prevents full analysis of collection issue.

Información faltante

- Transaction data showing payment processing status
- Headcount and compensation changes affecting payroll budget
