

Finance AI Agent Report

Periodo: 2026-04
Generado por Finance AI Agent a partir de datos procesados.

Resumen ejecutivo

The university's April 2026 financial performance shows significant payroll budget overruns across multiple departments, with no evidence of transactional data for invoice aging or student collections. Critical evidence gaps prevent full assessment of revenue shortfalls and cash flow risks.

Hallazgos clave

- Payroll expenses exceeded budget by \$33,818.53 in Health Sciences (16% variance), \$4,826.79 in Arts & Humanities (4% variance), and smaller overruns in other departments.
- No processed transaction records were retrieved for invoice aging analysis (STEP-001) and student collections (STEP-003), indicating potential data pipeline issues.
- Financial report evidence (STEP-004) confirms a deficit but lacks detailed anomaly structure for root cause analysis.

Causas raíz probables

- Data pipeline failure preventing transactional evidence retrieval for critical financial metrics
- Payroll budgeting process not aligned with actual headcount and compensation structures
- Lack of real-time monitoring for revenue collection targets (94% tuition collection target missed)

Recomendaciones estratégicas

Prioridades estratégicas

Prioridad
Restore transaction data pipeline for revenue monitoring
Align payroll budgeting with actual headcount and compensation structures
Achieve 94% tuition collection rate target

Causas raíz

Causa probable
Data pipeline failure preventing transactional evidence retrieval for critical financial metrics
Payroll budgeting process not aligned with actual headcount and compensation structures
Lack of real-time monitoring for revenue collection targets (94% tuition collection target missed)

Acciones recomendadas

Prioridad	Acción	Impacto
critical	Investigate transaction data pipeline for April 2026	Restore ability to track overdue payments and tuition collection rates

Prioridad	Acción	Impacto
high	Conduct payroll budget variance analysis by department	Adjust budget allocations to match actual headcount and compensation patterns
medium	Review tuition collection process against 94% target	Improve collection rates to meet 94% target and prevent revenue shortfalls

Payroll overruns are confirmed by evidence, but revenue and cash flow analysis is blocked by data pipeline failures. The 16% payroll variance in Health Sciences is the most significant confirmed issue, while missing transaction data prevents assessment of revenue shortfalls.
