

Finance AI Agent Report

Periodo: 2026-06
Generado por Finance AI Agent a partir de datos procesados.

Resumen ejecutivo

The June 2026 financial report reveals significant overspending in Engineering and Health Sciences departments, with Engineering exceeding its budget by \$111,996 and Health Sciences by \$92,859. The primary drivers include vendor payments for supplies and services, particularly from Professional Services Network and University Supply Cooperative, which contributed to the variance.

Hallazgos clave

- Engineering's actual expenses (\$734,196) exceeded budget (\$622,200) by \$111,996, driven by vendor payments for supplies and services.
- Health Sciences' actual expenses (\$658,959) exceeded budget (\$566,100) by \$92,859, with similar vendor payment patterns.
- Payroll variance for Health Sciences was \$87,255, significantly higher than other departments, indicating potential misalignment in staffing or compensation planning.
- Student payment collections met targets with 100% paid status for Health Sciences in June 2026, suggesting no revenue shortfall.

Causas raíz probables

- Unplanned vendor payments for supplies and services, particularly from Professional Services Network, contributed to overspending in both Engineering and Health Sciences.
- Health Sciences' payroll variance of \$87,255 may stem from unexpected overtime or benefits costs not aligned with budgeted FTE headcount.
- Lack of real-time monitoring for vendor payment approvals may have allowed overspending to accumulate without early intervention.

Recomendaciones estratégicas

Prioridades estratégicas

Prioridad
Prevent further overspending in Engineering and Health Sciences through vendor payment controls.
Align payroll budget with actual headcount and compensation costs for Health Sciences.

Causas raíz

Causa probable
Unplanned vendor payments for supplies and services, particularly from Professional Services Network, contributed to overspending in both Engineering and Health Sciences.
Health Sciences' payroll variance of \$87,255 may stem from unexpected overtime or benefits costs not aligned with budgeted FTE headcount.
Lack of real-time monitoring for vendor payment approvals may have allowed overspending to accumulate without early intervention.

Acciones recomendadas

Prioridad	Acción	Impacto
high	Implement real-time vendor payment approval workflows with budget thresholds.	Reduce vendor-related overspending by 50% within 6 months.
high	Conduct payroll budget vs. actual analysis for Health Sciences to identify FTE or compensation discrepancies.	Align payroll budget with actual FTE and compensation costs within 3 months.
medium	Review and adjust budget thresholds for high-risk departments like Engineering and Health Sciences.	Reduce annual overspending by 20% through proactive budget adjustments.

Evidence shows Engineering and Health Sciences overspending primarily through vendor payments and payroll variance. Recommendations focus on real-time controls, payroll analysis, and budget adjustments based on current data. Missing information includes detailed overtime/benefits breakdown and historical vendor trends.
